EDUCATION

CESI - Expected graduation: *August 2026* —
General Engineering Degree (Lean Six Sigma option)

Polytech Nice-Sophia · 2020-2022—
Electronics & Embedded Systems (bac+4)

DUT GEII · IUT Nice · 2017-2020

SCHOOL PROJECTS

Green Belt DMAIC — Alstom

Lean Six Sigma
Led Define & Measure (SIPOC, CTQ, data analysis) on train-release delays from door non-conformities.

Continuous Improvement — Capstone

Gemba walks across production, quality & logistics; built a 5 M€ investment business case (<5-yr payback).

PROFILE

Final-year CESI engineering apprentice (Lean Six Sigma Green Belt), IT Apprentice at OPmobility (Alphatech). I deploy MES/PES (DELMIA Apriso) and bridge the shop floor to IT via OPC UA, PLC (TIA Portal, Step7), Node-RED, Grafana and DASIP. Available from October 2026.

EXPERIENCE

IT Apprentice

OPmobility — C-Power, Venette

September 2023 - September 2026

- Deployed PES/MES (DELMIA Apriso) on the Lublin line — real-time part-level traceability.
- Integrated IT/OT via OPC UA between PLCs (TIA, Step7) and the MES; built Node-RED & Grafana dashboards (VIGO).
- DASIP (in-house machine-data tool): configured it, ran support & tickets, and now **manage its European-plant roll-out**.
- Configured and debugged the PES(MES) and trained local teams.

Technical Support Apprentice

DEIF Mediterranea, Valbonne

October 2018 - June 2022

- Provided technical support for energy and maritime control solutions.
- Assisted in implementing automation processes across various projects.
- Collaborated with teams to optimize control systems.

INTERESTS & LANGUAGES

- Endurance & team sports: marathon, football, surf, calisthenics
- Travel & world cultures · Strategy games · Tech watch

LANGUAGES

French (native) · English (B2 — TOEIC 815/990) · Arabic (native) · Spanish (beginner)
